A Unique Culture

studied for three months at Al-Ah iyya Amman University, in Amman, the capital of jordan. It was a life-changing experience. Every day was a new adventure — very different from my life in the USA. While it was there, I studied US politics in the Middle East, the history of the Arab World, and Arabic language.

People often ask me what my favourite memory is, but it's difficult to answer because there are so many! I loved riding a camel in the Wadi Rum desert and I went on an amazing excurs on to Petra. The countryside was beautiful and completely different from where I live in the United States. I also enjoyed the unique culture of Jordan, Of course, there were things that isometimes found difficult, but everybody from Jordan was very understanding and friendly

My recommendation for people who want to study abroad is to go to a country that is completely different from where you live and to stay as long as you can, loved learning about another culture and think studying abroad is a great experience.
